

# Facebook App

## What is it?

Our service includes a Facebook App that will automatically post your listings to your Facebook Business page.

## How Does it Work?

Once installed, we automatically pull your listing details with a link to your Property Site and add them to your Facebook Business page.

## Keep in mind ...

You must have a Facebook Business Page already created to use this service.

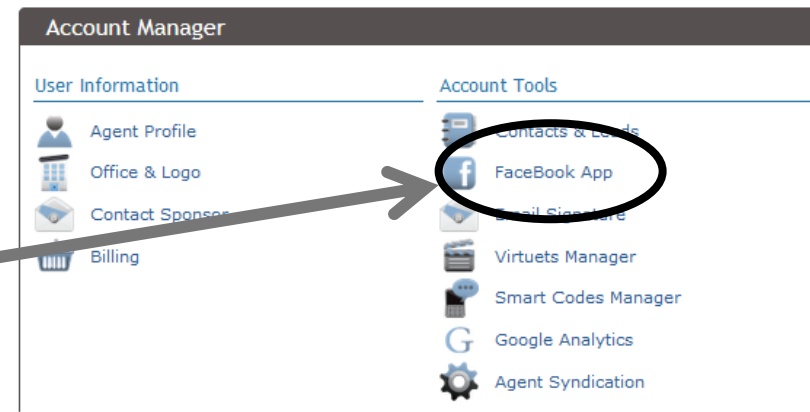

# Facebook App

## How Do I Get Started?

First, login to your account at Facebook.com

- 2 Next, open a new browser window and login to your account with us.
- 3 Once you have signed on, scroll down to the Account Manager Section and click the link under the Account Tools that says Facebook App.

# Facebook App

- 4 To create your listing tab on your Facebook Business page, you must first click the “Select” button and once the URL is highlighted, hold the “Ctrl” button and click the “c” key to copy the link.

## Step 1: Preview the FaceBook Link

Preview the Link [HERE](#).

## Step 2: Copy the Link

Click on the **Select** button to choose the URL. Type **CTRL+C** to copy the URL.

<https://www.listingserver.com/fblistings.aspx?aid=9442&m=1>

Select

## Step 3: Install the FaceBook App

Click on this button to Build your Widget. Paste the above link in the **URL** section.

5

After you have COPIED the link, click the “Create Your Facebook App” Button.

# Facebook App

- 6 Now this will bring you to Facebook. Select the Business Page you would like to add the App to, from the drop down menu. Next click the button that says “Add Page Tab”.

### Add Page Tab

## Tab Settings

Your Page Tab has been installed. Now it's time to configure your new page tab to show the content you want.

**Configure Page Tab**

Click button

### What happens next?

If it's your first time using the Woobox dashboard to configure tabs, you may be asked to authorize the Woobox application. This allows us to verify that you are an admin of the Facebook page and allows you to update the content of the tabs for your pages.

7

Next click on “Configure Page Tab”. Note: if you receive a page requesting to allow Woobox to manage your Pages and access your Page, select “OK”.

# Facebook App

- 8 Select the URL button and paste the Link you copied earlier into the box.

Allow mobile users to access the tab via <http://statictab.com/cc3ggn8>

Upgrade to enable the Mobile Access option.

## PAGE SOURCE

URL REDIRECT IMAGE HTML

Enter a URL to load in the iframe window:

<https://www.listingserver.com/fblastings.aspx?aid=9692&m=1>

Height:

2400 px

Hide Scrollbars

Save Settings

Select "Tab Settings" link.

Add Tab Name in designated box. We suggest "My Listings". The default name is "Welcome".

Next, click the "Save Settings" button.

Lastly, click "View Facebook Tab" to view App.

# Facebook App

## That's it!

Your new Facebook App showcasing all of your active listings should be now visible on your Facebook Business Page. If you have questions or need help, contact a member of our customer support team.
